

Doc Code: IMIS

The computer readable form (CRF) of the sequence listing filed 4/12/2006, version 1.0 in SCORE, was not validated in SCORE or reviewed by STIC, due to a technical problem.

A non-compliance notice requiring a CRF be submitted was subsequently sent to the applicant 10/6/2006. Applicant subsequently filed a replacement CRF, version 2.0 in SCORE, on 11/6/2006, which has been validated in SCORE and reviewed by STIC.

Sequence listing versions 1.0 and 2.0 were found by SCORE Support to be identical. In view of the replacement CRF, which supersedes the earlier filed CRF, the earlier filed CRF will not be validated in SCORE or reviewed by STIC.
